1. On 16 January 1963, the undersigned discussed the PECHORD use of *UNREVEAL/2* as noted in the above reference, with Harry H. LAMMON from the Munich Base transiting Paris.
2. The Station pointed out that it has no objections to the use of *UNREVEAL/2* as outlined in the above reference. LAMMON was briefed, however, of the inherent security danger in view of the fact that the local French services have attempted to approach *UNREVEAL/2* for possible FIBURTEL activities. Arrangements for continued skill contact with *UNREVEAL/2* from Munich has been arranged and given to LAMMON.
